	Storage Temperature: -40°C to +85°C
	Humidity: 5% - 80% (non-condensing)
Battery: 3.7V, 350 mAh, Rechargeable lithium polymer (safer than ION)	Weight: 81g
	Dimensions: 94.5(L) x 50.5(W) x 18.5(H) mm

Bringing you Peace of Mind, Security and Freedom

Please note!

Make sure that the sim card is installed in the device and the toggle switch inside the device is pushed to the shown position prior to installation.

Once the unit has been turned on, you'll see the lights flashing. If no flashing lights, don't be alarmed as the battery might be empty, add power via asset battery and the lights will come on. ADD the device to the Track Map platform now!

Close the lid tightly after you've checked that the tracker is working and then continue with the installation. Make sure that the flashing lights are pointing towards the sky when hiding the device for accurate reading.

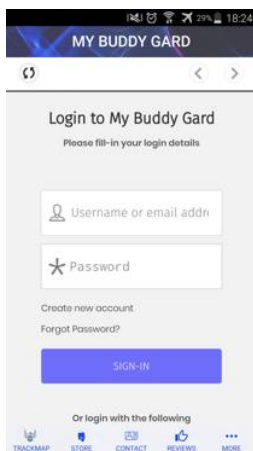

If you can't get the device to communicate with the Track Map platform, contact My Buddy Gard via:
Email: connect@mybuddygard.com.au Facebook: @MyBuddyGardGPSTracking Call: 1300 692 8339

IF BYO Sim Card: Make sure sim card is live and is data and SMS enabled (4G nano sim card suitable only)
